

Social Studies TEKS Alignment: 5th-8th Grade

The Museum's exhibits consist of three floors of displayed artifacts that cover Texas history from the earliest American Indian tribes up to the space age. The content of the exhibits is divided into "chapters" of the Story of Texas that explore different eras and events.

First Floor - Chapters 1-4

On the first floor, students investigate the many cultures that have made Texas their home from the native peoples of Texas to early European explorers and settlers from across the globe in **Encounters on the Land**.

Second Floor - Chapters 5-8

On the second floor, students explore the story of how Texas became an independent nation and defined itself for the world in **Building the Lone Star Identity**.

Third Floor - Chapters 6-12

On the third floor students discover how Texans have persevered on the land and how they approached everything from drilling oil to redefining world technology in **Creating Opportunity**.

This document maps out the exhibit chapters and TEKS alignments for middle school social studies. The TEKS alignment listed on the following pages are a small sampling of the potential curriculum tie-ins that can be achieved with self-guided exploration of the exhibits. Due to the cross-curricular nature of history and the plethora of artifacts on display, a field trip to the Museum has the possibility of hitting TEKS in multiple subject areas and any grade level. This document is intended to be used as a starting point for establishing curricular tie-ins for Museum field trips, but can be expanded through activities and worksheets.

If you would like to align your field trip to other subjects or grade levels not listed below, please email the Museum's education department at Education@TheStoryofTexas.com for assistance.
