

EMPLOY + EMPOWER

WHO WE ARE:

3Strands Global Foundation is a nonprofit organization that was formed in 2010 to create a world free from human trafficking through prevention programs.

THE ISSUE:

Economic insecurity is one of the main vulnerabilities exploited by traffickers and is a primary reason survivors of human trafficking return to a life of victimization.

Without the proper resources, training, and support system, it can be difficult for a survivor or at-risk individual to find a sustainable job or another pathway, such as an education program. This can be especially true for certain populations, including transitional-age foster youth and reentry youth.

THE SOLUTION:

The Employ + Empower program provides the resources and support necessary for clients to obtain and maintain jobs or education program placements. 3Strands Global Foundation's Social Workers meet regularly with clients, assisting with needs such as transportation, childcare, professional clothing, and referrals to mental health services.

3Strands Global Foundation coordinates with our employment partners to inform them about human trafficking. We also train them on how to create a trauma-informed process for employees.

Empowerment is the first step in pursuing a future of one's own choosing, free from exploitation.

E + E impact

“I was applying for jobs and getting turned away because of my criminal background. I wanted to work, but was getting discouraged, and losing hope. I started to feel like, ‘well, maybe the life is all I am good enough for’ – then I found out about your program and felt so excited.

I can’t wait to have a job, wake up early and have a routine. I want to do well and make positive decisions.”
